

# VALLEY VIEW RUBBISH COLLECTION

## Curbside Leaf Pick-up

- September – Early December.
- We are not set up with leaf vacuums or trucks any other time of year, so leaves must be placed in recycleable bags or cans for pickup on Thursday.
- Please don't mix the yard waste, branches, or any other debris in with the leaves. This causes the pick up tubes to clog and can damage the machine.
- Do not put leaves in the street. This can cause a traffic hazard and can also clog catch basins when leaves are washed down the street. This may result in street flooding.
- Because of the amount of leaves that can fall there is no set time for leaf pickup in any certain area.
